

MICROSOFT AZURE

MIGRATION SERVICES

Aligned to Microsoft's Cloud Adoption Framework, Lexel will ensure your Azure migration is well-considered, seamless and cost effective.

A Microsoft Gold Partner in both Cloud Platform and Cloud Productivity, Lexel's Microsoft Azure services span three distinct phases:

1. **Azure Migration Assessment.**
2. **Azure Migration Services.**
3. **Azure Management Services.**

Lexel's Azure migration services are delivered by our qualified and experienced Azure migration services team; with proven methodologies ensuring your organisation meets its business objectives throughout your Microsoft Azure cloud migration journey.

Cloud migration process

Lexel's technical Azure migration project plan includes:

- 1 Discovery of your on-premises footprint (including virtual machines, networks, applications, etc).
- 2 Map dependencies and network topology.
- 3 Recommended optimisation path for workloads.
- 4 Determine best cloud computing service model.
- 5 Cloud migration strategy and plan.

Our migration services include:

Decommission. Shut down inefficient or obsolete business applications whilst retaining access to historical data.

Re-architect. Right-sizing resources, consolidate various application tiers (when possible) or re-architect the application for PaaS.

Re-process. For workloads already in the cloud, Lexel can re-process these to better realise the benefits of Azure.

Re-platform. Remove performance bottlenecks and increase an application's operability on Azure.

Application Lifecycle Management. End to end management of application development lifecycle including governance, development, and maintenance of apps.

Lift and shift. As-is migration of applications and data from an on-premises datacentre to Azure.

Licensing. Lexel's Microsoft licensing experts are on hand to ensure you are procuring your licensing in the most optimised and cost-effective manner.

Project management. End-to-end project management ensuring your Azure migration stays on track and in budget.

Service Desk. Available 24 x 7, 365 days a year, Lexel's New Zealand based team is available to help with your Microsoft Azure support.

FastTrack. Lexel will help you leverage the benefits of Microsoft FastTrack.
