

MICROSOFT AZURE

PROFESSIONAL SERVICES AND SUPPORT OVERVIEW

Delivering exceptional Microsoft Azure services, solutions and support, Lexel's Microsoft cloud practice team offers a wealth of expertise and capability, delivering peace of mind for your organisation's Microsoft Azure cloud journey.

A Microsoft Gold Partner in both Cloud Platform and Cloud Productivity, Lexel's cloud adoption and migration methodologies are aligned to Microsoft's Cloud Adoption Framework.

Spanning three distinct phases, Lexel's core Microsoft Azure services include:

Azure Migration Assessment

Lexel will assess your organisation's readiness to migrate to Azure, providing you an understanding of the ROI, benefits, costs, timelines and the risks associated with moving workloads to the cloud.

Azure Migration Services

Lexel's experienced Azure migration services team will deliver cloud migration services with proven methodologies ensuring your Microsoft Azure cloud migration journey is well planned and seamlessly implemented.

Azure Managed Services

Lexel's Microsoft Azure Managed Services are delivered by our qualified and experienced Azure management team; ensuring your organisation continues to meet your business objectives and that your Azure environment is optimised and efficient in terms of performance, resilience and cost.

Our other services include:

Consulting. Our experienced, certified Microsoft Azure specialists are on hand to help, delivering best-of-breed services every step of your Azure cloud journey.

Support. Our nationwide team of Microsoft experts are available to deliver superior remote or onsite Microsoft support, across a range of Microsoft cloud services and solutions.

Service Desk. Available 24 x 7, 365 days a year, Lexel's New Zealand based team is available to help with any Microsoft Azure support requirements.

Professional services. Whether you'd like Lexel to manage your entire Microsoft cloud project or a specific component of it, our knowledgeable team can accommodate your unique requirements.

Project management. Lexel's experienced team is aligned to industry best-practices and proven project management methodology.

Change management. Through Lexel's proven continuous improvement model, ensure user adoption and satisfaction with Microsoft Teams.

User adoption & training. Deliver a great user experience through our customised training, adoption plans and AI based e-learning.

Licensing and management. An established Microsoft Cloud Solution Provider (CSP) with EA license partnerships, our knowledgeable team can license, provision, manage and support your Microsoft cloud solutions.
