

# MICROSOFT MODERN WORKPLACE

COLLABORATE SECURELY FROM ANYWHERE, ON ANY DEVICE

**Award-winning Microsoft Partner Lexel Systems can help transform your organisation into a modern workplace; empowering employees to securely communicate and collaborate from anywhere, on any device.**

Microsoft's Modern Workplace is underpinned by Microsoft 365, harnessing the power of the cloud. A complete, intelligent solution in one suite, Microsoft 365 delivers a smart, efficient operating system, mission-critical enterprise-grade security tools and seamlessly integrated workplace productivity applications.

Having one integrated solution spanning productivity, security, and device management enables organisations to operate more efficiently and cost-effectively.

## Lexel, your modern workplace partner

A Microsoft Gold Partner in both Cloud Platform and Cloud Productivity, Lexel's experienced team will help transform your organisation by:

-  Enabling employees to work securely from any location and on almost any device.
-  Collaborating in real time, employees stay connected and productive wherever they work.
-  Defending against cyber threats and safeguarding your business's valuable data.
-  Reducing IT costs and complexity. Lexel's world class professional services, solutions and support are rolled into one easy monthly payment.

Aligned to Microsoft's Cloud Adoption Framework and built on industry best-practices, you can rely on the expert team at Lexel to ensure your Microsoft modern workplace journey is well-considered, seamless and cost effective.

## Our other services include:

Delivering exceptional Microsoft modern workplace services, solutions and support, Lexel delivers peace of mind for your organisation's digital transformation.
